Conclusion

1. Borough 'Hackney' had the highest price increase. Borough 'Greenwich' had the lowest price increase.
2. I arrived at the conclusion by looking at the bar plot graph of average price increases of all the boroughs.
3. The main challenge was to clean the data and get rid of missing values and non-boroughs.
4. I would like to investigate why or what factors led to the high price increase of the Borough 'Hackney'?
5. I would like to forecast prices for 'Hackney'?
